FEATURES AND BENEFITS

30-seconds Setup	The RV-5 Plus is built around the world famous 30-seconds Oztent frame. This means you can be setup and hanging out in your favourite chair, around the fire in no time! It also makes pack down a breeze, no more stress!
Skymesh Skylight	SkyMesh is built into the roof of the main tent and unzips to give you a full, insect free view of the stars. All zips are located inside the tent to allow for easy opening and closing. SkyMesh also gives you great ventilation inside the tent.
Included Fly	The fly has always been an accessory to add onto your OZTENT RV- that's not the case anymore! The OZTENT RV -5 Plus doesn't need the fly to be waterproof but it helps with reducing condensation all year round.
Peaking Poles Included	We believe your OZTENT RV- 5 Plus Awning is best when it's peaked so we included everything you need to do that! 2 x Peak Poles and 2 x Spreader Bars (plus ropes and pegs) come included with every RV Plus.
Sleeps 5	The RV-5 Plus is built with enough room to sleep 5 or you can sleep 2 inside and enjoy the extra space to stretch out.
Utilising our Tried and Trusted Polycotton Canvas	Just like the original RV Range, the RV-5 Plus utilises our trusted 8oz Ripstop polycotton canvas. This material is super high quality and durable - which is what you've come to expect when buying an OZTENT RV.
